

FAVORS THE FRANCHISE.

Public Opinion is United in Wanting the Santa Fe Railroad to Come Into Oakland.

Tonight the Santa Fe franchise will come up in the Council for final action. It is confidently expected that it will be passed without amendment and without division.

The ordinance granting the franchise was passed to print without a dissenting vote, and no ground for opposing it has since appeared.

No opposition to the franchise has appeared in any quarter. Public opinion seems to be a unit in its favor, and the Council can hardly fail to be guided by popular sentiment in this matter.

If Oakland gives the Santa Fe a franchise without restriction, as Emeryville has done, it is regarded as certain that Berkeley will do the same. Therefore the action of the City Council is looked upon as deciding whether the Santa Fe is to come in here. The officers of that road announce that they intend to begin work as soon as the franchise is granted.

The citizens of Oakland are more desirous than ever that the Santa Fe should make an entrance into this city. They have no fear that the company will not provide proper terminal facilities if allowed to enter. They believe the law of competition will compel the Santa Fe to give Oakland a first-class service, although they are confident the company requires no compelling motive to induce it to do so.

They point to the fact that the Santa Fe is noted for giving a good service in every field that it has entered and it is generally popular with its patrons. In Southern California this road is regarded with peculiar favor because it has done so much to build up the

This is considered the finest lot in the tract.

It is located on the property sold for \$50 a front foot, or \$5,000.

It is stated that the purchasers intend to build one of the finest homes in Oakland on the lot.

HUNDREDS ARE KILLED IN A MINE DISASTER.

One Man is Blown Out of a Hole But the Others Perish in the Fire.

KNOXVILLE, Tenn., May 18.—A special to the Standard says the Fraterville and Thistle coal mines at Coal Creek, Tenn., exploded this morning. Only one man escaped, he being blown out of the mine. About 250 men were at work in the mines. Flames were now issuing from south and vent holes.

George N. Camp, superintendent of the Thistle mine, gave out an official statement estimating the number of killed in both mines at 150. None had been rescued.

Fraterville coal mine is located in Anderson county, Tenn. It is owned by the Coal Creek Coal Company. Major E. J. Camp of this city is president and general manager. It is the oldest mine in the district, having been opened in 1750. A large area has been developed and worked.

The Coal Creek seam is struck by this mine, the hardest vein averaging 4½ feet in thickness. Fraterville has always been considered one of the safest mines in the Coal Creek belt.

Two rescuing parties were started into the Thistle and Fraterville mine entrances as soon as possible after the explosion. The Thistle party was unable to make any headway whatever as the gas stifled the men almost as soon as they entered the shaft.

The Fraterville party went as far as the "parting of the ways" into the mine, where a heavy fall of slate was encountered. This cut off any further passage into the mine until the slate can be removed. The intense heat indicates that the mine is on fire.

At 10 o'clock there was no longer any question but that the Thistle miners also suffered death.

At 11:45 o'clock one man was taken from the mouth of the Fraterville mine. He was an unrecognizable mass of flesh.

MANY KILLED.

KNOXVILLE, Tenn., May 19.—The staff correspondent of the Knoxville Sentinel, who is at Coal Creek, Tenn., wired the following:

"As the result of an explosion in the Fraterville coal mines, two miles west of town, at 7:30 o'clock this morning, probably between two hundred and three hundred persons have been killed.

There may have been from 250 to

DYNAMITERS WILL NOW BE TRIED.

Madrid Anarchists Will Have to Answer in Court.

MADRID, May 19.—The police are extremely reticent regarding the discovery of the anarchist plot.

Several of the papers now question whether the arrested men really entertained the intentions attributed to them.

It is said that the authorities on getting an inkling of the purchase of dynamite, ordered inquiries made concerning each purchaser and the existence of the conspiracy is thus thought to have been discovered.

Nevertheless, the Liberal today declares that as a result of the preliminary examination probably only Gabriel Lopez, an employee of an insurance company, and Francisco Suarez, the well known anarchist, will be brought to trial, although the others are still detained.

Lopez's wife, when questioned by the police, admitted that her husband had frequent mysterious visitors recently. Lopez has fairly good antecedents. Prior to the present trouble he professed to be a federal republican.

Lopez and Suarez were again confronted today with a result similar to that of yesterday, when Lopez declared that Suarez gave him the dynamite cartridges found in his possession and told him to throw them as the Royal Guard passed through the Carrera Sanguonillo.

The case is in the hands of a prudent magistrate, who it is believed can be depended on not to give exaggerated importance to the affair.

MINERS ARE STILL OUT OF WORK.

WILL NOT GIVE IN UNLESS WAGE SCHEDULE IS FIXED.

HAZELTON, Pa., May 19.—The second day of the total suspension of hard coal mining as a result of the deadlock between miners and mine owners began today without the faintest ripple of trouble to disturb the calmness of the situation. Not a coal company made a move to start up a colliery today and not a miner wandered near the big black breakers.

No one was about the collieries except the engineers, firemen and pump runners, whose duty it is to keep the steamboilers who are looking after the mines that have been brought to the surface, and the repairmen, who are doing odd jobs of patchwork in and about the main buildings. The miners held meetings today at which speeches were made by the local leaders for the purpose of keeping up the courage of the men. New members were taken in by some of the locals and the matter of preparing to relieve the distress in case the strike is prolonged was discussed.

As far as can be learned there have been no applications received by the union for aid.

TRIED TO KILL THE GOVERNOR.

ST. PETERSBURG, May 19.—An unsuccessful attempt was made yesterday evening to assassinate the Governor of Vilna.

According to records available, Lieutenant General Van Wahl is the Governor of Vilna, European Russia. General Von Wahl was formerly Chief of Police of Petersburg and several years ago had a great deal of trouble with the students there.

Lieutenant General Wahl was coming from the circus at Vilna about midnight when a man stepped up from behind and fired twice with a revolver, wounding the Governor in the left hand and right arm. The wound in the left hand was serious and the Governor was thrown to the ground. He succeeded in firing a third shot harmlessly. He gave the name of Hirschfeld.

On Sunday night he was out very late, returning to his room at 5 o'clock in the morning. In response to a query from his room mate, N. Baker, he made no explanation as to his whereabouts, but immediately retired. At 5 o'clock he arose, went to the bureau and secured his pistol. An hour later he fired the fatal shot.

The bullet passed from temple to temple, lodging just beneath the chin. Had the force been sufficient the ball would have passed through Baker's head as well, he being right in the line of its force.

Coroner Buckreus held an inquest this afternoon, but no new facts were learned.

JEALOUS LOVER KILLS MANY.

Terrible Tragedy in St. Augustine, Fla.—Shot His Sweetheart and Others and Killed Himself.

ST. AUGUSTINE, Fla., May 19.—Crazed by his infatuation for Abitha McCulloch, a 15-year-old girl, William Austin, aged 25, today killed the girl and four other persons and then committed suicide in the farm house of William Wilkinson, near Hastings, eighteen miles from St. Augustine.

The dead:

WILLIAM WILKINSON, aged 52.

MRS. WILKINSON, his wife.

MISS ABITHA McCULLOUGH, aged 15.

MRS. WILKINSON, sister of William Wilkinson.

ONE CHILD.

The crime was discovered by John Keller, who found the six corpses scarcely cold and the only living witness to the tragedy—a helpless infant.

Austin had been madly infatuated with the McCulloch girl and, it is said, killed the family because his advances were rejected.

Austin went to the Wilkinson home Friday night and proposed marriage. He was rejected, but, vowing he would marry the girl, hurried to this city and procured a license. He went to church on Sunday afternoon and told every one whom he met that he was to be married that night.

About 7 o'clock this morning several shots were heard, but no investigation was made.

When Wilkinson failed to appear for work, John Keller, a farm hand, was sent for him and discovered the tragedy.

EXCITING ELECTION HELD IN SAN JOSE.

SAN JOSE, May 19.—The biennial municipal election progressing today is the most exciting ever held here. The vote will be the largest ever polled. Before noon over 3,000 ballots out of a possible 4,500 had been cast.

There are two tickets in the field, one headed by A. Greeninger, who is backed by the Mackenzie machine and the other by George D. Worswick, nominated in open convention on an anti-boss, reform government platform.

Both sides are working like beavers after a campaign conceded to be the hottest ever known in San Jose.

It is impossible to foretell the result, as both sides claim victory. Several arrests for illegal registration have been made.

FERRYBOAT IN COLLISION AT NEW YORK.

NOBODY WAS HURT AND BUT LITTLE DAMAGE DONE.

NEW YORK, May 19.—The ferry boat Mauch Chunk of the Central Railroad of New Jersey collided with a railroad boat off the Battery today. The Mauch Chunk had a number of passengers aboard and her captain did not back out from the float for fear that the water would rush in at the hole made by the collision.

The float and ferry boat drifted down the bay together, and as there was a heavy fog were soon lost to sight from shore. The ferry boat Eastern and the tug Elcomine, were being towed by the tug Elcomine. There were about fifty passengers on the ferry boat, and for a time there was much excitement.

SENT BULLET THROUGH BRAIN.

CHARLES WARD OF BAKERS FIELD TAKES HIS LIFE.

BAKERSFIELD, May 19.—Charles Ward, a well known tailor here, while lying in bed this morning with his head within a foot of his sleeping room mate, sent a bullet crashing through his brain and expired almost immediately.

Ward was in the employ of Morrow and Ward, a man of good habits, being highly regarded by his acquaintances.

On Sunday night he was out very late, returning to his room at 5 o'clock in the morning. In response to a query from his room mate, N. Baker, he made no explanation as to his whereabouts, but immediately retired. At 5 o'clock he arose, went to the bureau and secured his pistol. An hour later he fired the fatal shot.

The bullet passed from temple to temple, lodging just beneath the chin. Had the force been sufficient the ball would have passed through Baker's head as well, he being right in the line of its force.

Coroner Buckreus held an inquest this afternoon, but no new facts were learned.

MRS. TEVIS BUYS A HOME IN DENVER.

She Will Leave California and Go to Her Native City.

SAN FRANCISCO, May 19.—Mrs. Cornelia Baxter-Tevis, widow of Hugh Tevis, has purchased the graystone residence of E. J. Rhodes at 1010 Pennsylvania street, Denver, Col.

The house was built by James E. Rhodes, a wealthy contractor of Denver. It is one of the finest in Denver, both in its location, construction and interior arrangements. The rooms, of which there are sixteen or eighteen in number, are all large, light, airy and finished in various kinds of hard wood.

The upper rooms are arranged in suites, while the lower floors are constructed with large halls and spacious apartments, beautifully finished and arranged with a special view to entertainment.

It is believed by those who are on the inside in the transaction that the purchase of the residence was connected with Mrs. Tevis' money. Mrs. Tevis, with her infant son, is expected in Denver early in June, and the house is to be given possession to her father on June 1.

Mrs. Tevis has already a beautiful home near the old town of Monterey, in this State, which has been modeled after old mission architecture. The buildings look like a small village, and it was when Mr. and Mrs. Tevis were in Japan to purchase art curios for the decoration of the Japanese wing that he was stricken with his mortal illness.

REGULARS CANNOT PASS ON VOLUNTEER

WASHINGTON, May 19.—In an opinion delivered today by Justice Peckham, the United States Supreme Court decided the case of Captain Peter C. Deming in that officer's favor.

Tornado In Texas Does Immense Damage in Five Minutes—Ninety People are Killed.

DALLAS, Tex., May 19.—The storm that swept over Texas yesterday afternoon snuffed out the lives of at least ninety persons, injured over one hundred and left the historic little town of Goliad a gaping wreck.

Within five minutes the terrible work of the tornado was done and those who were lucky enough to escape with their lives ran to the work of rescue.

The survivors at Goliad are too dazed to estimate the property loss, but a strip of the town two blocks wide and one mile long was swept. The damage is heavy.

Dead and dying animals are mixed with the debris that marks the path of the storm.

The injured are being cared for this morning by physicians and nurses who arrived on special trains late last night.

DEAD AND INJURED.

DALLAS, Tex., May 19.—Up to this hour, 10 a. m., no names of the dead or injured has been received here in addition to those already reported.

The storm which swept Goliad destroyed much property in other portions of the State, but so far as known no lives were lost. Shanties near the storm struck San Antonio and demolished property to the value of \$75,000 and injured several persons, none seriously. Austin also suffered considerable property loss.

At Mineola a wind storm, followed by rain, uprooted hundreds of shade trees and threw several houses from their foundations. A Mrs. Williamson was injured. Heavy rains fell throughout the western portion of the State and helped crop maturing. The Panhandle especially was drenched.

SUPERVISORS PASS TO PRINT COW ORDINANCE

**Must Not Drive Cattle
Through the Streets
of Elmhurst.**

**DISTRICT ATTORNEY
REPORTS ON LEGALITY.**

The Board of Supervisors this morning passed to print the ordinance prohibiting the use of streets in the Lockwood and Elmhurst school districts for driving cattle during the day time.

When the matter was brought up the following opinion from the District Attorney was read:

"Gentlemen: While I have been unable to find a case parallel to the conditions expressed in the proposed ordinance regulating the driving of cattle over certain streets in the county, and while the matter is not entirely free from doubt, I am of the opinion that it is within the powers of the Board of Supervisors to pass such a regulation when the circumstances of the case require it. There ought to be no question of the power of the Board to pass such a regulation when the streets are used for driving cattle in large herds. Very respectfully submitted."

The matter was then referred to the Committee on the Ordinance and Judiciary Committee and favorably upon it. The rules were then suspended and the ordinance was passed to print without discussion.

The measure is aimed at a dairyman who twice daily drives a herd of 20 cows along Sixth street and Elmhurst and Fairview avenues in Elmhurst. At the last meeting of the Supervisors testimony was taken at the request of Attorney Kinney to show that the practice was dangerous to women and children.

SELL LIQUOR AGAINST LAW AT FRUITVALE.

**Supervisors After Men
Whose Licenses
Were Denied.**

**WOULD AMEND
THE ORDINANCE.**

The liquor traffic occupied the attention of the Supervisors for considerable time this morning and the License Collector was directed to report on the saloons selling liquor without a license and the keepers selling under another name than their own, while a petition to amend the present ordinance was referred to the Committee of the Whole and the District Attorney.

The latter matter was brought up by a committee of local optionists composed of Dr. C. W. Brown of Alameda, Dr. W. K. Sanborn of West Oakland, E. J. Martin of Berkeley and Andrew Jones of Elmhurst.

E. J. Martin was the spokesman of the committee. He said:

"We have an ordinance regulating the sale of liquor which was drawn by Attorney R. S. Gray and Dudley Kinney. The cardinal feature of it is when there is a protest signed by a number of citizens equal to a majority of those who voted at the last election in that precinct, then the license shall not be granted. We are representing no cranks, nor associations, nor churches, but we represent the American sentiment which says that the will of the majority shall rule. We think the present ordinance is illegal and this one is not."

"Do you represent the Anti-Saloon League," asked Mitchell.

"We do not," answered Martin.

"Do you represent the Federation of churches?"

"We do not; we represent a sentiment. The State law has been violated in Berkeley for years, but we recently started a crusade against the violators and we have secured a conviction in every case."

"But there are so many organizations to suppress the liquor traffic," said Mitchell. "It would suggest that you all get together."

"The trouble is that the religious man thinks the liquor traffic should be entirely discontinued. We say that, where people want saloons, let them have them and where they don't want saloons, keep them away. I haven't been to church five times in five years. My wife does the church going for us both."

The matter was referred to the Committee of the Whole and the District Attorney.

Before the meeting closed, Church moved that the License Collector be requested to report to the Board the number of saloon keepers selling liquor under other names. He said he knew of a case where the Board had refused to grant a license and the applicant had taken one out under another name.

"I think he should also report on those who are selling without any license," said Mitchell. "I don't know about Tepper, but Taylor and some of the others at Diamond are selling liquor every Sunday and bragging about it. They are defying this Board and the law."

The matter was referred to the License Collector.

**SOLDIER APPARENTLY WANTS
TO GET EVEN ON HIS
SUPERIORS.**

WASHINGTON, May 19.—During the Philippine investigation before the Senate committee today a letter was read from General Hughes denying that he had ever given orders for the water cure and saying that if such a charge was made he wanted the fullest investigation of it. Corporal Richard O'Brien, formerly of twenty-sixth volunteer infantry, testified to seeing the water cure administered. He said also that officers violated a Spanish woman at one town.

At Iloilo he said three officers—Major Cook, Captain McDonald and Lieutenant Plumber of Company B—became intoxicated at a reception, took off their coats, seized some of the native women and insisted upon their dancing with them, much to the disgust of the women, who were above the peasant class. He said he was not on good terms with his captain. He said also that at one place a woman with two children was burned to death in a bamboo shack when the troops were burning the town. Dum dum, or explosive bullets he stated, were issued to the troops in the regular way and did horrible execution. There were "unwritten orders" to take no prisoners, which were carried out in one campaign. He did not know who issued the orders but they were unquestioned.

Corporal O'Brien described the capture of Lanang in Panay when a sentry fired at a native boy on a corral. He alleged that the boy was killed. He said that the sentry was himself included. This was not done by orders. The shooting brought the people to their doors. One old man was shot in the abdomen. The sentry and the old man came out with white flags and both were shot down.

Upon close questioning Corporal O'Brien admitted that he was not a prisoner and they were treated kindly both by the officers and the men. He will give further testimony tomorrow.

**RULING GOES
AGAINST CHINESE.**

WASHINGTON, May 19.—The Supreme Court today dismissed for want of jurisdiction the case of Lee Lung versus F. L. Patterson, United States Collector of Customs at Portland, Oregon. Lee Lung is a Chinese merchant, who after a short residence in the United States, returned to China and brought back with him one of his wives of which he had never been divorced by another wife. The party were denied admission under the ruling of the Treasury Department and sued out a writ of habeas corpus in the District court for the district of Oregon. The court refused to entertain the writ, on the ground that it could not review the order of the executive department. Today's opinion affirms that decision. Justices Brewer and Peckham dissented.

**JUDGE MELVIN WAS ILL

JAS. STANLEY MISMANAGED AN ESTATE.

JUDGE ELLSWORTH ORDERS HIS
POWERS REVOKED IN THE
LESLIE ESTATE.

Judge Ellsworth this morning issued a peremptory order suspending ex-Public Administrator James Stanley as administrator of the estate of Walter Leslie, deceased, and directed him to appear in court two weeks hence to show cause why he should not be removed permanently.

The reasons for the order as expressed by the court are sensational. The order is as follows:

"In the above entitled matter, Hon. John Ellsworth, a judge of this court, and the court having reason to believe from credible information that James Stanley, the administrator of the estate of said William Leslie, deceased, has mismanaged the property of said estate and has used the money thereof in his own private business for his own purposes."

The action of Judge Ellsworth did not come as a surprise. He had previously issued an order directing Stanley to turn over to the court all property and accounts of the estate, but Stanley failed to comply and was removed from the order to the Supreme Court.

**DID NOT HAVE THE POWER TO
REMOVE OLD BOARD OF
HEALTH**

SAN FRANCISCO, May 19.—Judge C. M. Sloss today rendered a decision in the suit of Dr. J. M. Williamson against Mayor Eugene E. Schmitz, which will have the effect of continuing the old Board of Health in office.

The decision does not go into the right of the Mayor to remove appointments on the city commissions, but his ruling is a substantial victory over those who contend that officers under the charter cannot be dismissed without a trial.

Mayor Schmitz removed the old board from office on account of the actions of the board during the prevalence of the plague scare in this city last year, it being the opinion of Mayor Schmitz that the board exceeded its authority in promulgating plague reports.

Under the ruling of Judge Sloss, Mayor Schmitz will be forced to appeal to the Supreme Court or institute proceedings for quo warranto.

AN EPIDEMIC OF CRIME.

TWO MURDERS AND A CUTTING
AFFRAY REPORTED FROM
SALINAS.

SALINAS, Cal., May 19.—An epidemic of crime seems to have struck this vicinity during the past few days. Besides two murders, there are reported this morning other cutting affrays at Castroville during last night.

A report has just reached Salinas that a serious fight occurred early yesterday morning in the Rouse house. The proprietor, B. Gambetta, a Swiss, attempted to eject E. Dotta, a well known rancher of Santa Rita, who was partly intoxicated and was creating a disturbance. Dotta seized a beer glass, struck Gambetta over the right temple, telling him, Gambetta dropped unconscious and Dotta continued assaulting him while prostrate.

Gambetta recovered his senses and had Dotta in his grasp when they were separated, "Dotta seeing that he had badly injured Gambetta, his assailant, fled, but was arrested last night at Jolietter. Gambetta, who lost his right eye, as both parties are prominent in the Swiss colony here, the affair causes much excitement.

**An incoming
tide set in
early this
morning**

This morning a lady who has been long waiting an opportunity to get a good second-hand piano at a fair price came into Sherman, Clay & Co's. warerooms and selected an excellent piano (both as to reputation and condition) and agreed to pay \$6.00 a month for it.

This afternoon a letter came from Napa, which says: "Pick out as good a second-hand piano for me as \$75.00 will buy." We are sending this party a piano that sold retail two years ago for \$350.00. He pays \$6.00 per month for it. Saturday night our warerooms were full of people. Surprise was expressed that so many good sounding and good looking pianos, showing so little wear, could be had for so little money and at such tiny payments. Today we offer among a great number of makes such pianos as Ludwig, Fischer, Howard, Kranich & Bach, Smith & Barnes, etc.

We still have a few square pianos which will be sold on payments as low as \$2.00 per month.

This clear-em-out sale of slightly used pianos will continue throughout the week, however, if you are looking for a bargain it will certainly pay you to call without delay.

SPAIN'S YOUNG KING.
The young king of Spain ascends his throne in an atmosphere of assassination. A plot to murder him on the day of his coronation was fortunately frustrated. The life of Alfonso and the peace of his kingdom are beset by two sets of disturbers who are radically opposed to each other, but who join in contending against the established order in Spain—the Carlists and the anarchists. The former are strong in the Basque provinces of northern Spain and are mainly of the rural type, exclusively religious and devoted to the ancient monarchy. On the other hand the anarchists are mainly from the industrial centers, and are generally of the artistic and student classes. They are atheistic, and are opposed to all forms of government, being especially bitter against the monarchial system. These are the two diverse elements which hold the sword of Damocles suspended over the head of the youthful monarch. The queen mother is intensely hated as a foreigner notwithstanding her many virtues and her descent from the greatest of Spanish kings. She more nearly than her husband represents the true descent from Ferdinand and Isabella through Charles V. There is good reason to believe that Queen Isabella, grandmother of the present king, was not of the Spanish royal stock at all, and her son's parentage is shrouded in suspicion and doubt. Therefore on his paternal side Alfonso has a clouded descent through very murky channels. But his mother represents an unbroken line whose blood has always run unswollen, whatever the other faults and vices of the Hapsburgs. The protruding lip and prominent under jaw which were the marked facial characteristic of Charles V. have been transmitted to all his successors of the Austrian house. This sign manual of descent stronger than marriage sacraments is impressed on Maria Theresa, and Don Alfonso, through his mother, is given the family resemblance to his ancestors that was lacking in his father and grandmother. But this mark of true descent has never reconciled the Spanish people to the "Austrian." Neither her virtues nor her misfortunes have opened the hearts of the Spanish people to her, and she is still an alien in Spain though the mother of its king. Her young son was born under a shadow, and he ascends the throne of his fathers with bloody hands reaching out against his frail life. Circumstances have made this feeble boy, who never harmed any one, the representative of an institution that arouses the bitterest animosity and puts his life in constant peril from men who would not harm a hair of his head but for the fact that it is adorned with the kingly crown. His lot is not one to be envied.

THE BUILDING CRISIS.
The trouble between the Federated Trades Council and the Building Trades Council will give another setback to building. It is particularly unfortunate that this conflict between two executive bodies representing labor organizations should have paralyzed building operations at a moment when owners are smarting under the raise in the price of building materials. Construction has been made unduly expensive by an arbitrary advance in the price of materials not justified by market conditions, but solely as the effect of combination, and now an exasperating cessation of operations has ensued because two sets of labor unions have undertaken to settle their dispute as to jurisdiction by refusing to work with each other. Certainly the lot of the builder has been made unappealing recently. Within a year the cost of the materials which enter into a building, including labor, has advanced fifty per cent. That is, a building that would have cost \$100,000 a year ago will cost \$150,000 today. The prices of lumber have nearly doubled, and the trust has cracked on the price of structural steel almost to the breaking. Everything else costs more. This is depressing enough, but the labor unions have decided to add to the woes of the builders by quarreling with each other and quitting work. It would seem as if those most interested in helping the building boom along—the dealers in building supplies and the mechanics—are hindly working to arrest it. So far as the dispute between the unions is concerned, it involves no question that concerns either contractors or building operators. It does not involve any question of hours or wages, nor touch the principle of unionism. The Building Trades Council represents a State federation of unions engaged in the building trades. It is a close corporation of mechanics. The Federated Trades Council represents a universal organization covering the whole country and embracing all labor unions, whether skilled or unskilled. Practically, the fight is to compel the State organization to submit to the jurisdiction of the general federation. It is purely an issue of policy between the unions themselves, but it is fought out by both sides laying down their tools and stopping all building operations. The innocent public is being punished, and a flourishing industry that has already been blackmailed by combinations of middlemen is brought to a sudden standstill. There ought to be wise leadership enough in the labor unions to avert such a condition of affairs. It threatens an industrial crisis, and has a tendency to cause operators to drop all building projects for the present.

MR. SHINN'S COMPLAINT.
Mr. Charles Howard Shinn, who recently resigned from the Forestry Department of the State University, states that his resignation was forced by President Wheeler, who, he says, had announced that he could get a man to do Mr. Shinn's work for half the salary Mr. Shinn was receiving, viz: \$150 a month. We have no desire to pry into academic secrets or to raise the wage question in regard to the payroll of the University, but Mr. Shinn's complaint brings to mind a recent article he wrote for an Eastern publication in which he made a plea for Chinese immigration. Mr. Shinn had evidently been talking to Joaquin Miller, for he announced that there was a strong sentiment in California against excluding the Chinese. Mr. Shinn was favorably impressed with Chinese labor because it is "cheap and docile." When President Wheeler manifests a liking for "cheap and docile" labor at the State University Mr. Shinn makes a great roar about taking his own medicine. In such crises consistency is a jewel that frequently turns to paste. Germany's questioning the sovereignty of the United States in the Sulu archipelago is not a serious matter. It is only one of those technical bits of diplomacy that do not signify much. Germany certainly has the shadow of a claim to special privilege in the islands—enough at least to argue about—and the least she could do was to raise it. The action cannot be construed as being unfriendly to the United States, for the question was only tentatively brought forward in a diplomatic way. Great Britain has put forward a dozen such claims in the same way in behalf of Canada during the last thirty years. Such disputes are generally placed on file for use when new treaties are to be negotiated.

OLIVE HYDE WANTS DAMAGES NOT WANT TO PAY

SAYS SHE FELL FROM THE BROAD GAUGE TRAIN AND WAS INJURED.
Olive Mellyde today brought suit against the Southern Pacific Railroad Company, claiming \$5,000 damages for injuries which she alleges she sustained on December 31, 1931. The complainant alleges that as she was about to leave a broad gauge train at Center street station the train started suddenly, throwing her against the train gate, which closed on her hand, cutting three of her fingers to the bone. Since that time she alleges her fingers have stiffened and she can no longer ply her trade as dressmaker. She claims her hurt was due to the negligence of the defendant and asks damages accordingly.

ASKS COUNCIL TO DELAY ITS ACTION.

The following communication from M. J. Keller on the sewer ordinances relating to the title of lands on the western shores of Lake Merritt will be presented to the City Council this evening: "Oakland, Cal., May 19, 1932. "Hon. Rud W. Church, Clerk of the City Council—My Dear Sir: As the chairman of the Committee of Seven appointed by the Honorable City Council of the City of Oakland, to advise with it in the matter of creating a bond issue for the improvement and development of Oakland, will you please have this letter read at the meeting this evening. "I would respectfully request the Honorable Council not to pass finally on the sewer ordinances relating to the title of certain lands on the western shores of Lake Merritt. It is possible that if any of them are passed it may hamper and impede certain improvements that the Council has already declared for and which the Committee of Seven have in contemplation. We are to obtain legal advice as soon as possible upon these ordinances and until that time would be pleased to have them held from final passage. "This letter is intended to prejudice the passage of the ordinance in no way but simply to delay them, pending investigation. Very Respectfully, "M. J. KELLER. "Chairman Committee of Seven Public Progress."

SALVADOR DOES NOT WANT TO PAY

Congress Makes Protests Against Claim of A. W. Burrell and Others.
NEW YORK, May 19.—A special to the Herald from Salvador says: Congress has energetically protested against the decree of the arbitration commission in Washington that the Government of Salvador pay about \$500,000 to Mr. Burrell and other American citizens for taking away the port of El Triunfo franchise. The Salvadoran newspapers have published a protest signed by the leading foreigners residing here, including some United States citizens. All who signed the protest are of the opinion that the whole affair is a scandalous fraud. At the time of the award Congress was about to pass a bill contracting for the establishment of the Banco Hipotecario by Mr. Altschul, a citizen of the United States, but because of the decision in Washington the contract proposals were rejected by a unanimous vote. Plans for United States banking firms for \$5,000,000 have also been dropped. Throughout Salvador there is popular excitement and a feeling of resentment against the United States is evident. Thomas Prather, John P. Irish, William Lair Hill and A. W. Burrell of Oakland are interested in the claim.

"Tell that youth who is smoking to take a seat in the dock," ordered Judge Smith. After the examination of McCoy and Baldwin, Judge Smith gave the cigarette smoker a severe lecture on the evils of smoking and allowed him to go.

ATTACKS ON THE ARMY.

WASHINGTON, May 19.—Senator Dooliver said the attacks on the army were directed by malevolence, which was directed against the government. He paid a tribute to the late President McKinley, saying there was no note of greed in his policy. McKinley put the seal of his approval upon holding the Philippines in trust for their inhabitants. He said Congress was more likely to cede back the valley of Mississippi than to leave the Philippines to anarchy.

J. M. POWERS HAD A NARROW ESCAPE

A runaway horse nearly cost J. M. Powers of 1326 Pacific avenue, San Francisco, his life yesterday. Mr. Powers came to Oakland to visit some friends. He brought a young Frisky horse over on the ferry. As he was going up Jefferson street the horse became frightened at a piece of paper and dashed furiously up Jefferson street. Powers lost all control of the animal, and at the corner of Sixteenth the horse shied and Powers was thrown out against the curbing. He struck on his head and was picked up unconscious and carried into a grocery on the corner. Here he was brought back to consciousness and sent back to his San Francisco home.

He will remain in Hawaii only about ten days, as he goes more for the sea voyage than anything else. His recovery has been even more rapid than he anticipated, and he expects to be in perfect condition to resume his practice immediately on his return from Honolulu.

BIG DAMAGE CASE AGAINST CITY OF ALAMEDA

Martial Davoust Wants to Collect \$50,000 For the Death of His Young Wife.

The trial of the suit of Martial Davoust against the City of Alameda, in which Davoust seeks to recover \$50,000 damages for the accidental electrocution of his wife, Edith M. Davoust, was begun before Superior Judge Greene this morning. Attorneys Nussbaumer of Oakland and Thomas Keogh of the firm of Campbell and Matson of San Francisco appear for the plaintiff, and City Attorney M. W. Simpson and M. C. Chapman represent the defendant. Mrs. Davoust, it will be recalled, became entangled in a live wire of the city's lighting system in September, 1893. She could not release herself and was slowly roasted to death before the eyes of a horror-stricken and helpless crowd. The tragedy occurred in a vacant lot on Monroe street between Pearl street and Versailles avenue, as she was running across lots to catch a narrow gauge train. In his complaint Davoust alleges that by reason of the city's negligence he was thereafter deprived of the services, love, affection and companionship of his wife, who was but 22 years of age and had long expectancy. The defendant makes general denial of all the allegations and sets up the claim that in crossing the vacant lot Mrs. Davoust was trespassing upon private property and not making use of the walks or thoroughfares provided by the city. The case is to be tried before a jury, which is being examined.

TUNNEL ROAD MAY BE HELD UP TWO YEARS.

M. M. Dunn Will Not Give His Consent—Proceedings of Board of Supervisors.

The report of the viewers of the tunnel road to Contra Costa County was read before the supervisors this morning and June 9 was set as the day for hearing the matter.

The viewers are E. C. Prather, Wilbur Walker and J. F. W. Sohet. They report that the tunnel road will be about three and one-third miles in length, sixty-six feet in width and will cross the lands of C. T. H. Palmer, M. M. Dunn, Edson E. Adams, Kate King, Ellen H. Chabot and Evan J. Coleman.

The only property owner who has refused to grant the right of way is M. M. Dunn and his refusal makes it necessary to condemn the land. The viewers state that it will require \$75,000 to compensate Dunn for the land.

"We agreed to everything Mr. Dunn desired," said Supervisor Rowe, "until he demanded that we put four sliding gates across the road. This we found to be impossible.
